MR. GOMPERS' ATTITUDE

The attitude of Samuel Gompers, head of organized labor, is amazing and past understanding save in one way: That he does not care for national industrial peace and prosperity, unless it comes through special privileges for organized labor. The reason we say that is what he stands for. This is what he stands for:

He demands that capital shall be forced to recognize labor in its collective bargaining attitude represented by a person of the choice of organized labor.

At the same time he is against lockouts and declares that organized labor will never submit to forced bargaining or arbitration with capital. "What is sauce for the goose is not sauce for the gander" with him. He declares that lockouts must be for hidden but strikes must be allowed.

He opposes the idea that men shall be free to work where they choose, whether they belong to a union or not, nor will he hear to individual bargaining between employer and employee. He demands, in substance, that no man shall be free to work unless he belongs to a labor union and is subject to the authority of organized labor.

He proposes that organized labor shall determine its own wage, but will not be held liable for any losses because of any acts of organized labor.

To put it briefly: He is not willing that any power shall in any way control or abridge the powers of labor, but that organized labor shall have much to say in the control of all business that affects the laborer in his organized capacity. "I'll take the profits in high wages and you can make good the losses," is his attitude.

Such a course will never win and Mr. Gompers and his associates had just well recognize that fact at once. The people are becoming aroused as never before and when they get thoroughly awakened to the true situation organized labor will suffer as it never suffered before. Take warning in time, Mr. Gompers, you and your organization are in grave danger.

Union labor is on trial for its life as never before. The proposed strike of the soft coal miners November 1 is in direct violation of their agreement to continue under present conditions until peace was declared or until April 1, 1920.

The course that is being pursued by labor has the past few months alienated the good feeling and sympathy of the public as never before.

That labor is sure to fail there can be no question unless it recedes from its present position.

This country is not going to be run by any class to the detriment of the masses, no matter what that class or under what guise it appears. Re-blooded Americans will never yield to such anarchists, socialists, Bolsheviks and I. W. W.'s as are passing and backing the present agitation that is primarily intended for the overthrow of the government and the bringing about of such conditions as now prevail in Russia.

Every true American citizen will frown on the present course of labor and those who do not are unworthy to be called Americans and should have their agitating mouths closed or be put into prison, it matters not if it takes machine guns and the flow of blood that will drench the streets of every city, town and hamlet in the land.

The time has come when temporizing with such should be brought to a close and the iron hand of the law laid with heavy force on all who oppose regardless of how much bloodshed may follow.

Senator Poindexter, of Washington, has announced as a candidate for the

"The 52 Biggest Problems of the Average Southern Farmer."

EVERY member of the Progressive Farmer has had actual farm experience—most of us running Southern farms now—and from our own experience, and the multitude of farmers' letters that come to us every year, we believe we have figured out a pretty nearly perfect list of these "Fifty-two Biggest Problems" of the average Southern farmer, and we are going to treat them in the next year's Progressive Farmer.

We are going to treat them, too, in order of timeliness, just as far as possible. For the aim of the Progressive Farmer, always, is to tell the subscriber just WHAT he wants to know, just WHEN he wants to know it, and in as few words as possible.

Here's the list of big problems we shall treat during the fall months, and the date each will be discussed.

October 11—How to prepare and get a good orchard.

October 18—More comfort and beauty for farm homes: Waterworks, lighting systems, painting, flowers, etc.

October 25—Seasonable distribution of horse and man labor: Arranging for profitable employment all the year around.

November 1—Financing the farmer: Personal and short term credit; long-term credit for land purchases; avoiding "time prices;" utilize national farm loan associations, etc.

November 8—Systems of farming: Affecting soil fertility, money profits, prosperity and permanence of rural life

November 15—Arranging and erecting fences; relative values of different systems, material, etc.

November 22—How to reduce land-washing to a minimum: Terracing, ditching, filling land with humus, Proper use of steep hillsides, etc.

December 6—Winter care and feeding of horses, mules, cattle and hogs.

The above subjects are of vital importance to you and alone are worth the price we ask, and remember the Progressive Farmer carries many other big features not mentioned above.

NOT SICK AND NOT WELL

In The Peculiar Situation Described, ZIRON Iron Tonic Is Found Helpful.

It often happens that the organs of your body do not function properly, for some reason or other. There is nothing really wrong, and you are not sick. But certainly you are not well, either.

If you are in such a condition, read what Mr. Wm. M. Bass, Rt. 1, Crossville, Ala., did, and try Ziron Iron Tonic, as he did. Mr. Bass says:

"I am nearly always pretty well and strong and do not need much medicine excepting for headaches. But, recently, when I had not been feeling very well for a while, I knew I needed some sort of medicine to make me all right.

I took Ziron and it made me strong and well again."

Ziron puts iron into the blood, and, by doing this, may prevent a serious attack of illness, which you are liable to "catch" at any time if your system is weakened or your condition below par.

Ziron has well proven its value as a tonic. Try it when you feel the least bit out of sorts, not quite as good as usual, tired and weary.

Your druggist sells Ziron on a money-back guarantee.
